MICHAEL ANGELO. "In the morning he was equally urgent that I should take the greater part of the half-dones cans of potted meats which he possessed, on ped for a powerful career, and he found a field worthy of his steps, men who loved and understood him, princes who honored and employed him, events by means of which every part of his mind was cultivated. It is a rare good fortune when a great genius lives in such an eventful time : If to-day a man were born with the same way, one thinks in parallels. We say, some-times, if Beethoven had lived in other times, had met other men, perhaps he would have devel-oped more freely; his depth of soul might not as it may appear to some people, that there ex been so often distracted and palued by the por-erty of his life. By poverty I do not mean any lack of money. It is a current opinion that the changed into a nightingale by good food. In egard to Beethoven I call it poverty, because great Michael Angelo, or, as he was generally called the divine Michael Angelo, experienced and passed far ahead of every one that followed common. The feeling does exist, and it is a in the wake which his keel made as it cut deep through the water. But one thing was denied to him—the feeling of satisfaction which many a man in poorer elecumetances often has is he felt the emptiness and the vexation of human freedom which is granted man only in his youth, before he feels the slavery of existence. Raphael knew nothing of this longing : life was not re-

Wherever he looks he sees forms; he commands, they appear to him, and he paints them. Happiness and bean ty, splender and luxury surrounded him; that is the air which breathes around his works; but, besides, he represented the most mourn-ful and frightful.
